Press Release

Foyer Global Health appointed as MaxHealth's re-insurer on the Dubai market

Luxembourg, August 2nd, 2022

Foyer Global Health, the international health insurer and service provider for globally mobile people of Foyer insurance group is now the re-insurer of MaxHealth, a Dubai-based insurance provider offering international hybrid health insurance solutions (IPMI) to UAE based corporates. MaxHealth will enable Foyer Global Health, part of Foyer S.A., the largest insurer in Luxembourg, to provide the UAE market with world-class treatment, advanced medical procedures, and the best healthcare facilities.

MaxHealth is a leading specialist in insurance solutions for the UAE market. Founded in 2014 and proudly managed by a German team, it provides the utmost service level to UAE expats. Licensed by the Dubai Insurance Company, MaxHealth structures its different health plans according to international standards, with careful consideration and compliance to the guidelines set by Dubai Health Authority (DHA) and Department of Health – Abu Dhabi (DoH). Driven by innovation, a quarter-century of expertise and proven track record, MaxHealth is trusted by the expat community in Dubai as a key partner to provide optimal insurance solutions. Their product lines embrace the needs of both SME's and large companies, and their innovative quotation tool allows their trusted brokers to generate instantly the perfect proposal. MaxHealth partnered with MedNet Global (Munich Re group), a third-party administrator, to handle claims and offer cashless access to their medical provider network.

François Jacquemin, Managing Director of Foyer Global Health, commented on the occasion, "Our objective at Foyer Global Health is to best serve the health needs of individuals and groups around the world through our tailored health plans. To meet this objective, we have partnered with MaxHealth to design hybrid (local and global) health insurance products dedicated to the UAE workforce."

Sven Reinicke, Managing Partner of MaxHealth, added, "With the support of our strong partner Foyer Global Health, we designed a wide range of product options to provide suitable health insurance solutions for everyone. Adding more automation and innovation to the existing product set-up in the future, this is just the beginning of a great collaboration."
